TO SUBSCRIBERS

Parties who do not receive their papers, or who have any cause of complaint, will oblige by notifying this office.

Entered at the Postoffice in Tonopah as second class matter.

EDITORIAL COMMENT

NEW ERA FOR TONOPAH.

Ore has been found in the Montana Tonopah mine below the dacite intrusion. The find proves beyond a doubt that the ore bodies of Tonopah have depth and permanency, and this is a question that has long agitated the East and mining centers. Very rich ore bodies have been encountered in the higher levels of all the mines, and there is enough in sight to keep the mines running for many years to come, without regard to the deep levels. But, for the reason that the dacite intrusion came in on the 600 levels, hostile rumor had it that the end of the ore bodies had been reached.

To disprove this, the majority of the mines in the district have been doing more prospecting work on the lower levels than ever before. The grit of the Tonopah man was never better proven than by the manner in which he has stuck to the hunt for the ore on the lower levels. They have been looking for it in the Montana Tonopah, the Midway and the Tonopah Extension. The ore has been found in the Montana and the Midway. The new finds do not show much in the way of values, but this was to be expected at the start. Preparations are now being made for the further development of the bodies. The Midway, in fact, is now sinking a winze to go through the ore body. The stock of both the Montana Tonopah and the Midway have advanced quite noticeably, and if the values should increase, the stock of each will be worth in the neighborhood of ten dollars a share.

Tonopah Extension has struck rich stringers on the 1050 level, and all the indications are that the lost ledge will be found under the dacite intrusion as it has been found in the Midway and the Montana Tonopah. The Extension will not reach the spot under the ledge until about the first of February.

The discovery of ore beneath the dacite formation means a new lease of life for the camp. The mines are rich enough as it is, but the new ore will quiet the croakers, and make of the mines of Tonopah new Comstocks. There is no doubt as to Tonopah being a milling camp, and the mills which are now in operation have been most successful. The news that the directors of the Tonopah Extension have decided to commence work on their prospective forty-stamp mill, is another feather in the cap of Tonopah.

What with mills and mines, and new discoveries in the latter, and the cash to pay the men of the mines, where can there be found a more prosperous camp in the country, and where will be found a more inviting field for investment for the East, when the stringency is loosened?

SETTLEMENT OF STRIKE BLOCKED

TACOMA, Wash., Dec. 14.—A telegram received today by the labor union at Grand Forks, B. C., will tend to widen the difficulty of the Granby company and its thousand idle miners and smelter men. As yet only a few men are working at the smelter, being engaged in track laying and the unloading of coke. A regular meeting of the Miners' union may deal with this matter, but little hope of a settlement is expected. In view of the following from Denver, signed by the secretary of the Western Federation of Miners:

"A. E. Hardy, President Miners' Union, Grand Forks, B. C.: Executive board will support miners in the effort to maintain present wage scale. Letter follows.

"JAMES KERWIN." Last month the Granby mines and smelter were closed under orders from New York. Two weeks ago a resumption of work was offered to the men providing they would accept the reduced wage scale already effective elsewhere in British Columbia. Many men wished to return to work on these terms, but the Miners' union and the Federation of Miners demand the continued payment of the old wage scale.

WORRY COSTS MINER SANITY

LOS ANGELES, Dec. 14.—Julius Werr, a miner, 65 years of age, went temporarily insane today from worry over \$1,000 in gold bullion which he yesterday deposited in a local bank. Werr was found on the street muttering threats against people and saying no one could get his gold away from him. The police investigated and found that he had yesterday deposited that amount in the bank. Werr says he got it at his Nevada mine. His sanity will be inquired into in court.

It will be unnecessary to go through a painful, expensive operation for Piles if you use Manzan. Put up in a collapsible tube with nozzle, ready to apply. For any form of Piles. Prices 50c. For sale by Tonopah Drug Co.

DARROW FAILS TO DISCREDIT

(By Associated Press.) BOISE, Idaho, Dec. 13.—Clarence Darrow, the Chicago attorney, who is conducting the defense of George Pettibone, had Harry Orchard, the State's chief witness, on the rack for two hours and a half today, endeavoring to discredit his testimony. The cross-examination was rigid and effective, in that the witness was pictured as an inhuman monster, murderer, bigamist, perjurer, gambler, thief and incendiary. Twice only during the day did he try to confuse Orchard in regard to his testimony at the Haywood trial, and each time he failed. Darrow announced that he would conclude the cross-examination tomorrow. Hawley stated to the court that the State would finish its case by next Thursday.

CALHOUN'S TRIAL IS POSTPONED

(By Associated Press.) SAN FRANCISCO, Dec. 13.—The trial of Patrick Calhoun, president of the United Railroads, who is charged with offering bribes to supervisors to obtain an overhead trolley franchise, has been postponed until February 1st. The trial was previously set for January 8, but the attorney for the defendant asked for more time to allow him to go to New York on business.

WANT RECEIVER.

(By Associated Press.) BELOIT, Wis., Dec. 13.—Creditors of John Thompson and Sons, manufacturing company, makers of gasoline engines, asked that they be declared insolvent and J. W. Ferguson of Rockford appointed receiver today. Liabilities are said to be \$100,000, and assets \$200,000.

KILLS WIFE WITH RAZOR.

MINNEAPOLIS, Dec. 13.—C. M. Colby, janitor in the Oxford flat building, early today killed his wife, nearly severing the head from the body with a razor, and then attempted to kill himself. He cannot recover. Trouble over a property transaction is said to have prompted the deed.

BEAR FACTION WAS IN CONTROL

NEW YORK, Dec. 12.—Speculative conditions were unaltered today, the influence governing the market being as potent in depressing prices as on previous days of the week. Liquidation played a large part in the day's decline and was materially assisted by an energetic bear faction which assailed different stocks from time to time in an endeavor to force out the long stock. Bonds were irregular, with a lower tendency.

Fresh bottled cream delivered to any part of city. Phone 1785. Quick delivery. Tonopah Dairy.

Get Ready for the Storm

SECURE NECESSARY REQUISITES FOR COMFORT

THE BIG STORE OF RYAN & STENSON
